

## **I/O Establishes Preferred Lease Provider Agreement with Seismic Equipment Solutions**

**HOUSTON – June 5, 2006** -- Input/Output, Inc., (NYSE: IO) today announced it has signed an agreement with Seismic Equipment Solutions LP (SES) to be a preferred rental and lease provider for I/O land seismic equipment. With this strategic agreement, I/O's clients will have access to SES's extensive inventory of I/O equipment and parts, facilitating quick delivery of land systems around the world. When leasing I/O equipment from SES, seismic contractors will receive enhanced customer service and the availability of qualified field service engineers and technicians.

Glen Huscroft, President of SES, commented on the agreement, "SES is delighted to continue growing our relationship with I/O. We are very familiar with I/O's land technologies, including the System Four<sup>®</sup> cable-based recording platform and the VectorSeis<sup>®</sup> full-wave, 3-C digital receiver. This agreement will further improve our technical and support services to meet market demand for land equipment. Our customers expect a quick response to their needs and we are here to deliver equipment solutions fast."

Ralph Muse, Vice President of I/O Land Imaging Systems Division added, "Customers who are currently using System Four now have a resource to expand existing equipment capacity for short-term projects. Additionally, SES' commitment to providing strong technical support ensures that the equipment will be maintained and operated properly, allowing our shared customers to realize the full value of I/O's technology."

Customers requiring leased equipment are encouraged to contact their local SES sales representative or to contact Glen Huscroft or Paul Mitcham directly by calling +1 281.313.9494 or visiting [www.globales.com](http://www.globales.com).

Customers looking to purchase land acquisition equipment are encouraged to contact their local I/O sales representative or to contact David Barnes directly at +1 281.879.2181.

### **About SES**

SES provides products and services on a global basis in the field of oil and gas exploration, including the rental, lease, lease/purchase, sale, and technical support of new, used, and re-certified instrumentation used in land seismic acquisition. Established in 2003 by Glen Huscroft and Paul Mitcham, Seismic Equipment Solutions LP (SES) has doubled in both size and experience over the past few years. Headquartered in Houston, Texas, SES is an "Approved Support Partner" of Input/Output, Inc. Additional information is available at [www.globales.com](http://www.globales.com).

### **About I/O**

I/O is a leading, technology-focused seismic solutions provider. The company provides cutting-edge seismic acquisition equipment, software, and planning and seismic
