

**Global Leader in Seismic Equipment Rental and Support Solutions Announces New  
Country Manager – Colombia**

*SES Hires Seismic Industry Expert as it Focuses on Expanding its Latin America Market*

Houston, TX (Dec 1, 2011) – Seismic Equipment Solutions (SES) today announced that Mr. Hernán Muñoz has joined the company as Country Manager for its Colombian operation. Hernan will be heading up the overall leadership and management of the Colombia office based in Bogota.

Hernán has 20 years experience working in the seismic acquisition industry. He began his career working for Western Geophysical as a Geophysicist in various countries throughout Latin America. Prior to joining SES, Hernán held various management positions, most recently as Operations Manager for BGP in Venezuela.

“Hernán’s technical background and operational management experience in the seismic industry will be a great asset to SES and its customers in Colombia,” said Travis Barker, Senior Vice President of Operations. His appointment follows SES’ increased presence and commitment to the Latin America market.

Mr. Munoz earned a Bachelor of Science degree from Universidad del Valle and a Master’s Degree in Exploration Seismology from University of Wyoming.

**About Seismic Equipment Solutions**

With headquarters in Houston, Texas, a new office and warehouse in Bogota, Colombia and representatives in Moscow, London, Calgary and Jakarta, SES is a global leader in seismic equipment rentals and support. SES provides exceptionally maintained lease equipment, world class field support, training, equipment repairs and parts sales worldwide.

The most technologically advance lease pool and support services in the industry.
